Dylan Lederle-Ensign

2017 S. Randolph St, 22204, Arlington, Virginia (USA)

(703) 216-9648 - dylan.lederle.ensign@gmail.com

Interests

I am a scholar, teacher, and practitioner working at the intersection of traditional Computer Science and the Humanities. I believe that transformative new work happens in interdisciplinary spaces and am interested in creating those conditions for myself and others.

Technical skills

JavaScript, Experienced (7 years)

Ruby/Rails, Used professionally at internship (3 years)

Unix/Linux/Command Line, Daily Linux user (8 years)

Experience

Internship - Logik Systems (June 2012/August 2013)

Washington, DC (United States)

I worked two summers on a small product focused team, building a SaaS Rails application. I did testing, new feature implementation, and implemented front end caching with Memcache.

Education

Computer Science/English Literature - BS

University of Mary Washington, 2013, Fredericksburg, VA (United States)

Bachelor's Degree in Computer Science with a second major in English Literature.

Computer Science - MS/PhD

UC Santa Cruz, TBD, Santa Cruz, California (United States)

I have completed a Masters degree and am currently in the process of conducting dissertation research and writing. My dissertation is on the historical development of software engineering, focused on the practices of the 1950's SAGE air defense system.
